Annexure 14:

(Related with Rule 26 (1))

Unilever Nepal Limited has articulated its purpose as,

"To earn the love and respect of Nepal by making a real difference to every Nepali."

The company intends to do this by driving our brands and business to create a 'Swastha' and 'Saksham' Nepal.

1. Financial Statements

a) Second Quarter Balance Sheet and P&L Account

Profit & Loss A/C for 2nd Quarter of 2082-83 and the corresponding Balance Sheet are attached. Data provided for the 2nd Quarter is for period Kartik to Poush this year & comparative for last year.

There have been no material related party transactions, pecuniary transaction or relationship between Unilever Nepal Ltd. and its Directors for the period ended on Poush 2082 that may have a potential conflict with the interests of the company at large.

b) Earnings Per Share, P/E Ratio, Net worth per share and ratio of liquidity.

- Earnings Per Share:

- For the 2nd Qtr. of Year of 2082-83 is Rs 468 (Rs 1,833 annualized) against Rs 519 (Rs 2,079 annualized) of previous year same period.

- P/E Ratio: (Based on closing price at NEPSE as on Poush end and EPS for last 4 quarters)

- Current Year (2nd Qtr.) 25.36 & Previous Year (2nd Qtr.) 21.60

Net worth Per Share:

- Current Year (2nd Qtr.) Rs.4,216 & Previous Year (2nd Qtr.) Rs. 4,641

-Ratio of liquidity:

- Current Year 1.63 (end of 2nd Qtr.) against 1.83 (end of 2nd Qtr.) of previous year.

2. Analysis of Management

a) The company's revenue from operations for the current quarter stands at Rs.1781 million, marking an 8% quarter-on-quarter decline. Despite strong performance in November and December 2025, the quarter continued to face challenges due to market disruptions caused by local political uncertainty, subsequent market closures after that, the festival market shutdown in the second half of October 2025 during the Tihar holidays, and an overall slowdown in the first half of January 2026. All segments were affected, led by Personal Care (PC).

Headwinds still persist in terms of GST rate changes in India, significantly impacting the Personal Care Business Group. Additionally, informal trade routes have seen increased inflow of India-manufactured cheaper products into border towns making locally manufactured products price uncompetitive.

b) Net profit for the quarter stands at Rs.431 million, reflecting a 10% decline quarter-on-quarter, largely due to sales contraction and higher material costs and our inability to take pricing due to situation created out of GST changes. Despite these challenges, the company partially mitigated the sales drop flowing into profit through robust savings programs and proactive optimization of the price-to-cost ratio. There was also a one-off benefit pertaining to soap noodles management which had helped improve the profit last year. Major savings were achieved in logistics costs and advertising & promotion (A&P) expenses, even after engaging a leading global agency for market research.

3. During the period under reference no case has been filed either by the corporate body or against the corporate body in the name of any Director/Promoter of the company.

4. Analysis of the share transaction of the corporate body:

a) Dealing of our company's share is the prerogative of the Nepalese public. We however prefer to focus on company's performance, i.e., on the top line & bottom-line growth of the company.

b) Share transaction details as taken from the NEPSE Website for the last 60 days are mentioned below:

Maximum Price: Rs 48,900

Minimum Price: Rs 46,390

Closing Price: Rs 46,500

Total transaction days: 60 Days

Transaction Nos.: 2,367 Shares

5. Problems & Challenges

Political instability amidst weakened interim cabinet is resulting in policy & regulatory delays. As a result, issues impacting the business like India GST changes and inverted duty structure remain unaddressed. Both administrative and structural remedies from government are required to neutralize this. Whilst there are positives in the macro-economic landscape (Ex; Sovereign rating of Nepal Bonds by Fitch, Successive rounds of discussion with IMF), we are anticipating economic headwinds which will challenge the consumption sentiments and affect demand of our products. Strong FX devaluation seen in Jan'26 and is likely to continue further into the year. Coupled with expected commodity inflation and continuing migrating population, further pressure is added, reducing domestic consumption. As result, we expect challenges in achieving volume led growth for the future but have an ambition to strive for achieving our growth aspirations.

6. Corporate Governance

The company believes in the highest standards of corporate behavior which are laid out through a written Code of business principles for transparency & all statutory/legal compliance by the company, its redistribution stockists, suppliers, transporters, contractors, and other business partners with whom the company associates through its operations. The management has achieved good governance and responsible management practices which are benchmarked to the best managed global companies.

I take full responsibility of the facts, data and information which have been mentioned in the report till today and submitted with the report. I declare that as per my knowledge all the details and information of this report are true, factual, and full and we did not hide any details, notice, information which are required by the investors to take their decision.

On behalf of Unilever Nepal Limited

Amlan Mukherjee

Managing Director
